# New IBM ThinkPads—lighter,

## New ThinkPad A20 Series

*A new experience in thin, all-in-one desktop alternatives!*

The new ThinkPad A20 is a mainstream desktop replacement with a large display and the latest technology, all in a thinner all-in-one package. We've actually

shaved off almost a pound of weight compared to the ThinkPad 390!

### Innovative ease of use

- One button access—The New IBM ThinkPad Button, Access ThinkPad and ThinkPad Assistant—provide a universe of intelligent online and Web-based information.
- Modular Ultrabay 2000
- **NEW**—integrated, easy-loading modular bay for fast swapping (one-button removes drive from bay)
- ThinkLight keyboard light lets you keep working in low light conditions
- Legendary IBM keyboard
- Comfortable, ergonomic full-size key keyboard with palm rest, TrackPoint pointing device and Internet Scroll Bar
- 6.4 - 6.7 lbs.

*The new ThinkPad A20 lets you take your work anywhere. And with its convenient keyboard light, you can keep working no matter what the time!*

### Expandability—common with ThinkPad T series

- New Ultrabay 2000 devices: DVD-ROM, CD-R/W, CD-ROM, Zip 250MB, superDisk (LS-120), hard disk drives, battery
- New ThinkPad Port Replicator and ThinkPad Dock
- Memory and power adapters

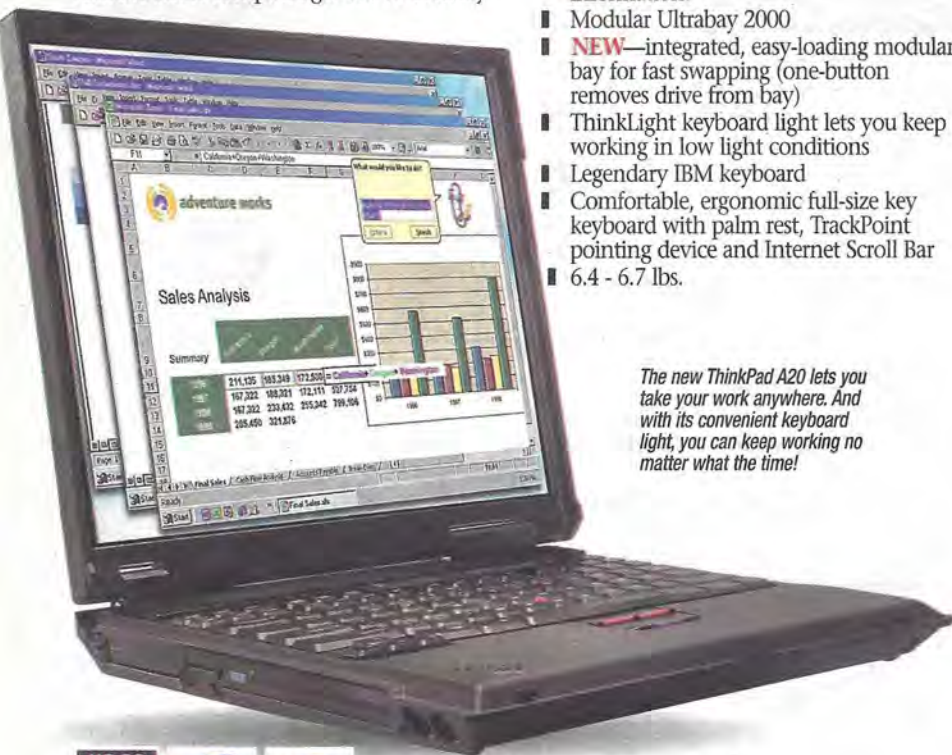

### Loaded with productivity software!

The ThinkPad A20 includes a generous number of programs and utilities to help you be more productive and keep your ThinkPad functioning properly. With Lotus SmartSuite Millennium, you get a powerful word processor, spreadsheet, database and more, all ready to use with the Internet. Also included are:

- Windows 98 or Windows 2000 Professional (model dependent)
- IBM Update Connector
- Access ThinkPad
- ConfigSafe
- PC Doctor
- SystemSoft Card Wizard
- ThinkPad Utilities

### ThinkPad A20 Specifications

- Intel® Mobile Pentium® III processor 500 to 700MHz, or Intel Celeron™ processor 550MHz
- 128 to 256KB Level 2 cache
- 15" TFT display (1400 x 1050), or 14.1" TFT display (1024 x 768) or 12.1" TFT display (800 x 600)
- 64 to 128MB RAM expandable to 512MB
- 4 to 16MB VRAM
- ATI Rage Mobility graphics
- 6, 12 or 18GB hard disk drive
- 6X DVD drive or 24X CD-ROM drive
- 56K V.90 Mini PCI card or IBM 10/100 EtherJet Mini PCI Adapter with 56K Modem (depending on model)
- Supports 2 Type II and 1 Type III PC Card
- Ergonomic keyboard with palm rest
- TrackPoint® pointing device with "Press-to-Select" and Internet Scroll Bar
- Li-ion battery with 3.5 to 4.3 hours life (depending on model)
- Serial, parallel, USB and infrared ports
- S-video-in/out (selected models only)
- ThinkLight illuminates the keyboard to improve visibility in low-light conditions
- UltraPort connector for video camera (selected models only)
- Titanium Composite cover (selected models only)
- 13.0" x 10.5" x 1.5 to 1.8"
- 5.9 to 7.6 lbs. travel weight depending on model and options installed
- Microsoft® Windows® 2000 Professional or Windows 98
- 1 to 3 year limited warranty

only **\$1,797** #82527

## faster, easier to use!

### New ThinkPad T20

**The lightest ThinkPad notebook with a large 14.1" screen!**

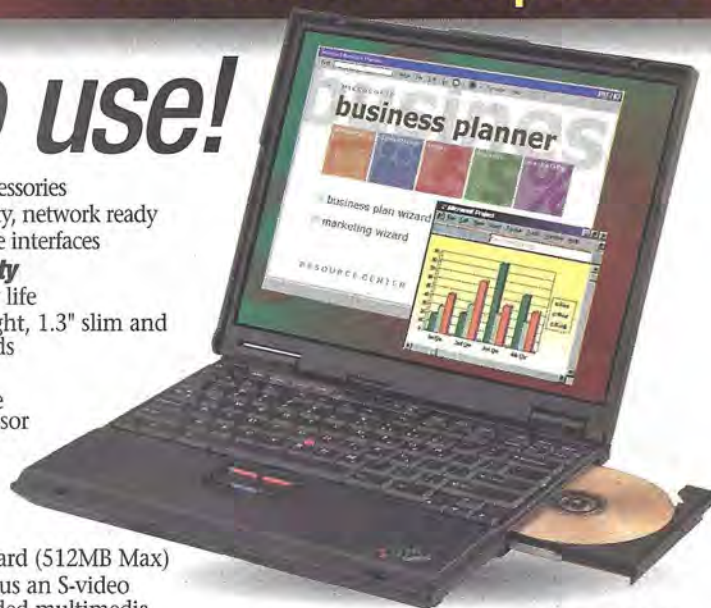

The sleek new ThinkPad T Series packs a lot of performance into a thin and light package. The Titanium Composite in the top and bottom covers of this 1.3" notebook creates a lightweight design with improved strength.

Using the new Ultrabay™ 2000, you can hot-swap standard and optional devices such as CD-ROM recorders, DVD-ROM, CD-ROM, SuperDisk (LS-120), second hard disk drive or second battery. Ultrabay 2000 devices, the new optional ThinkPad Port Replicator and the ThinkPad Dock can also be used with the ThinkPad T and ThinkPad A Series models.

#### High-performance portability!

- Lightweight, tough to beat

- Interchangeable accessories
- Versatile connectivity, network ready
- Easy-to-use, intuitive interfaces
- Maximized portability**
  - 4+ hours of battery life
  - NEW**—thin and light, 1.3" slim and less than 4.6 pounds
- High performance**
  - Latest Intel® Mobile Pentium® III processor featuring Intel SpeedStep technology
  - NEW**—14.1" TFT display
  - 128MB RAM standard (512MB Max)
  - NEW**—Standard plus an S-video out port for expanded multimedia capability

The versatile Communications Bay makes the ThinkPad T20 ready for industry-standard Mini PCI cards, including the 56K V.90 modem or combined 56K V.90/EtherJet solution.

Super Slim—  
only 1.1" thin!  
Super light—  
weighs less  
than 4 lbs!

### ThinkPad 570 Series

**Ultra portability without compromise!**

With the ThinkPad 570, you can have the best of both worlds, a super thin and light ultraportable, as well as a highly configurable desktop alternative. The ThinkPad 570 is a road warrior's dream!

Designed for the busy professional on the move, the ThinkPad 570 weighs in at just under 4 pounds. But it's loaded with a powerful processor running at up to 500MHz, plus a sharp 12.1" or 13.3" Active Matrix display.

#### UltraBase flexibility

Slip the ThinkPad 570 into its optional thin UltraBase and it transforms into an

integrated all-in-one notebook that's great for the road or the office. One UltraBase bay holds a diskette drive or battery, the other bay holds a variety of convenient IBM Ultralim Bay options.

#### Features

- Intel® Pentium® III processor with MMX™ technology at 450 to 500MHz
- 64MB RAM expandable to 192MB
- 6 or 12GB hard drive
- 3.5 hour battery life
- Super light—only weighs 3.96 lbs.
- Super slim—only 1.1" thin!
- Windows 2000 or Windows 98
- 3 year warranty

#### PC Mall Policies

**Payment Method:** We accept VISA, Mastercard, Discover, American Express and Diners Club. We will not charge your credit card for an item until it is shipped. Credit card orders shipped to a location other than your billing address may require additional verification. We do accept C.O.D. orders. C.O.D. charge is 6%. Make checks or cashier checks only payable to PC Mall. Include applicable sales tax and shipping costs. Sales tax is charged only on shipments to California and Tennessee. Send all mail orders and payments to: Creative Computers Mail Order Dept., File 55354, Los Angeles, CA 90074-5554.

**Shipping:** We ship by FedEx® or by UPS, in the United States. We use DHL to U.S. Territories, Canada and other foreign locations. We use U.S. Mail for APO and FPO addresses. All U.S. shipments are insured at no extra charge. Shipping costs may be based on average estimated weights and may vary from actual shipped weight. Call for accurate shipping costs. Phone orders placed and credit approved by 10:00 pm (EST) weekdays for items in stock not requiring configuration for delivery to the contiguous U.S. will ship

that same day via FedEx Priority. FedEx Priority provides delivery by 10:30 am the next day in areas where available. Phone orders placed and credit approved by 8:00 pm (EST) on Saturday for items in stock not requiring configuration for delivery to the contiguous U.S. will ship that same day via FedEx Priority for Monday morning delivery. UPS—UPS ground shipping is available. FedEx Sunday delivery available in select areas. Additional fees apply. Contact your PC Mall account executive for details. NOTE: Any special shipping offers supersede these policies.

**Prices & Availability:** Because of the fast-moving nature of our industry, prices and availability are subject to change without notice. If a product is not in stock when you call to order (for example, not yet available or sold out), we will do our best to let you know and to let you know when we anticipate the product will be available. Anticipated delivery dates are dependent upon vendor supplies and other factors and are subject to change.

**Typographic, Photographic and Technical Errors:** We do our best to be accurate but occasionally mistakes do occur. We are not responsible for any typographical, photographic or technical errors. NOTE:

Products and packaging depicted may differ from stock available at time of shipment; we reserve the right to substitute equivalent items.

**Return Policy:** All purchases are final, unless product is defective. Defective products are exchanged or repaired at Creative Computers' discretion within 15 days from receipt (no refunds or credit). Opened software is not returnable unless defective. Defective software may be exchanged for the same title only within 15 days of purchase. Please contact your Account Executive for assistance. Some software titles may come w/ a Money Back Guarantee. In this instance, please contact the manufacturer of the software title. Returns must be 100% complete. In original and resalable condition, with all packaging, manuals, registration cards and software. Shipping charges are not refundable. All non-defective product returns for credit or exchange are subject to a minimum 15% restocking fee, and must be completed within 30 days of the date of purchase. The following manufacturer's product is not returnable: Digital Equipment Corp., eMachines, Sony, Fujitsu, Hitachi, UMAX, IBM, Microsoft, NEC, Toshiba, Quark, Compaq and Apple. In accordance with the established policies of IBM, please call IBM directly at 800-772-2227 for

## Here's what our customers say about PC Mall...

"As one who has been involved with computers for many years, I just wanted to let you know how refreshing it was, as a first time caller to PC Mall, to reach someone that understood the task I needed to accomplish, and recommended a product that actually worked."  
— Rita Gaudet deVecchis

"In handling my order, PC Mall exceeded my expectations. You provided fast, accurate, helpful service during the order-placing process, then fulfilled the order more rapidly than expected. Thank you!"  
— Sean K. Moon

**Open 24 hours—Call any time to order!**  
**1-800-555-6255**

Any questions? Call any time! Your Account Executive is trained to assist you in finding the best hardware and software for you and your business. With over 125,000 products at the most competitive prices, PC Mall can meet your needs, and your budget!

— Leonard Slaughter, PC Mall Account Executive

## Why PC Mall?

- ✓ **One-to-one personal Account Executive**  
Your personal Account Executive is trained to handle everything from helping you select the right products to making sure your delivery reaches you when you need it. Call any time at 1-800-555-6255.
- ✓ **Fastest overnight delivery**  
 Place your order as late as 10:00 p.m. EST and get it by 10:30 a.m. the next morning! We now deliver on Sunday to selected areas! Call your Account Executive for details.
- ✓ **Over 125,000 products from 20 warehouses nationwide**  
Find what you need with direct access to over \$2 billion in available inventory—which includes over 125,000 products from the best names in computers, printers, software, memory, monitors and more! If you don't see it in the catalog, call us or visit us online at [www.pcmall.com](http://www.pcmall.com).
- ✓ **Customized configuration**  
Ask your Account Executive about low-cost custom configuration of your new system!
- ✓ **Toll-free technical support**  
We provide free assistance from a trained PC technical support representative on everything you buy from PC Mall! Just call your PC Mall Account Executive if you need help.
- ✓ **Extended warranties and service**  
With extended 1 or 2 year warranties provided through PC Mall, you can protect your purchase for years to come. See pages 15 and 17 for notebook and desktop warranties.
- ✓ **Open accounts**  
PC Mall offers terms to government agencies, schools and businesses. Your personal Account Executive can assist you in your application.
- ✓ **Software licensing programs**  
**Save up to 35% on full package prices with volume licensing programs!**  
With pcmall's Volume Licensing Program, you can save up to 35% on some of today's most in-demand software—from publishers like Microsoft, Adobe, Corel, Lotus, Apple and Symantec. Purchase a volume license for as few as 10 units. Call our Licensing Hotline at 1-800-555-4204.
- ✓ **Leasing programs**  
**Lease anything from one PC to thousands at truly affordable rates!**  
✓ 36-Month Term ✓ \$1 Purchase option for Businesses only  
**How leasing works:**
  1. Tell your PC Mall Account Executive you want to lease
  2. We'll take a short application
  3. We'll call you with a credit decision within 4 hours
  4. If approved, we'll fax you a lease agreement
  5. You sign the lease agreement and fax it back
  6. When we receive the signed lease, we'll ship your order—usually the same day**Call about our special leasing terms for educational institutions.**

## PC Mall EZ Payment Plan!

### NEW! Payment terms up to 48 months!

Have low fixed monthly payments on consumer purchases of \$750 or more with the new PC Mall EZ Payment Plan. Fast and easy to apply for, and there are no application fees or prepayment fees. Call your Account Executive today, or apply online! Complete your purchase in just minutes—and have your order tomorrow!

Financing available on approved credit arranged through MENA America Bank, N.A. Payment does not include shipping charges and sales taxes if applicable.

\*Estimated monthly payment is based on approximate 48-month term at an Annual Percentage Rate (APR) of 14.99%. Your APR may be higher. There are no transaction fees for PC Mall purchases billed directly to your account. There is a transaction fee of 3% of the U.S. Dollar amount of each advance check you write (\$5 min/\$30 max), but there is no obligation to use advance checks.

Own this Presario for as low as \$26/month\* with the NEW PC Mall EZ Payment Plan!

Order #54506.  
See page 24.

## No Credit Card Surcharges!

We Accept Visa, MasterCard, American Express, Diners Club and Discover!

All offers expire 9/4/00 and cannot be combined. Prices and specifications are subject to change without notice. Limited to stock on hand. While we do our best to check errors, mistakes may occur—call to verify pricing. See policies and procedures below left.

repair, return or exchange of defective IBM products. In accordance with the established policies of Compaq, please call Compaq directly at 800-552-6672 for technical support and/or return or exchange of defective Compaq products. Toshiba notebook products are subject to special conditions with respect to returns, exchanges and repairs. You may be required to contact Toshiba directly for resolution of these issues. If you have any questions regarding our arrangements with these vendors, please call our Technical Support Department. NO RETURNS ACCEPTED WITHOUT A RETURN AUTHORIZATION NUMBER. To request a return authorization, call your Account Executive at (800) 555-6255.

**Leasing:** All lease payments are exclusive of applicable taxes. Minimum leasing payment is \$50 a month. All leases require an administrative fee of \$49.95 to be billed on first invoice. Leasing services provided by third party suppliers.

**Warranty Disclaimer:** PC Mall expressly disclaims all expressed or implied warranties, including any implied warranty of merchantability or of fitness for a particular purpose. This disclaimer includes any warranties as to whether the products we sell will produce operational, logical or arithmetic

inconsistencies when dealing with dates beyond 1999, the so-called year 2000 Bug. PC Mall shall have no liability to anyone for incidental or consequential damages or any other liability, loss or damage arising out of or related to the merchandise sold. All merchandise is sold "AS IS." PC Mall makes no warranty as to the performance of any merchandise sold. We are not responsible for system downtime, lost data, etc. This disclaimer by PC Mall in no way affects the terms of a manufacturer's warranty, if any.

**Additional Information:** Policies and item availability subject to change without notice. PC Mall is not responsible for late or delayed shipments or system failures. Title to items being purchased is retained by PC Mall until items are paid for by the purchaser and at that time title passes to purchaser. If you purchase items for export, you must obtain from the Federal government certain export documentation. Terms of PC Mall's agreements with many vendors in the catalog forbid us from exporting product. Some products not available for sale to schools. All trademarks and registered trademarks are used to benefit and without intent to infringe on the mark holder. PC Mall and Creative Computers' logo are trademarks of Creative Computers, Inc.

— Gabriel Dycoco, PC Mall Account Executive

## Customize your PC!

Every business is different, with unique computing requirements. We can help you select just the right configuration for your computers, and do the customizing. **Get your peripherals built in!**

We can add any of these to the PCs you order:

- Second hard drive for additional storage capacity
- Cartridge drive such as Zip, JAZ or SuperDisk
- CD-R and CD-RW drives for recording CDs
- DVD-ROM drives
- Tape drives for file back up

## Factory trained installation

There are many reasons to have us configure your system before we ship it to you.

- All work is guaranteed
- Work is performed by factory trained technicians
- Customization will not void your warranty (which it may if you try to do it yourself)

## Make your computer more productive!

You can also have interface cards installed:

- Network interface cards
- High speed SCSI cards
- Graphics cards

Ask your Account Executive for details on ordering customized systems. It's the best way to get exactly the systems you want.

*"Thank you for providing such a wonderful service. I will recommend your company to my friends and colleagues!"*

— Mary Jo Metzler, Marketing Research Consultant

## Protect your computer investment!

With a Service Net Extended Warranty, you're guaranteed to get the most out of your new desktop computer—no matter what happens!

### Why an Extended 2, 3, 4 or 5 Year Desktop Computer Warranty?

- High costs of computer hardware
- Difficulty finding honest and reliable repair services
- Average product warranty is only 1 year—much shorter than the useful product life

### Service Net keeps your computer working right!

We provide first class warranty coverage through Service Net, a large, well-established service company dedicated to fast and efficient repairs.

- Extensive Service Network  
You'll have access to over 15,000 technicians nationwide, one of the largest networks available!
- All Brands are Covered  
We cover your computer and peripherals, no matter which brands you buy
- 24 Hour Protection  
Our customer service representatives are available every day except holidays to assist you—24 hours a day, 7 days a week
- Repair or Replace  
If unrepairable, your product will be replaced with a similar item
- Fully Underwritten and Insured  
Service Net is fully underwritten by a major insurance group that is rated "A" by AM Best.
- "No Lemon" Guarantee!  
We promise to replace your failed product/component after the fourth confirmed failure
- Range of Coverage Options  
Choose from on-site, carry-in or replacement coverage (Depot Service)

Call your Account Executive for more details!

HP Vectra computers give you industry-leading manageability that dramatically reduces the complexity and cost of managing your desktop environment.

## HP E-Vectra

### The best choice for manageability!

At just one-quarter the size of the traditional desktop PC, the stylish blue/beige e-Vectra fits discreetly into any office environment. The clever chassis design means you can put the e-Vectra where your users want it—desktop, desk-side, underdesk, or even wall-mounted. And it has a chassis intrusion alert and uses HP Lock and Master Pass Key system.

- Intel® Celeron™ processor at 500MHz to 533MHz or Intel® Pentium® III processors at 600 to 667MHz
- 64 to 256MB RAM ■ 8.4GB hard drive
- 24X CD-ROM (on select models)
- 10/100 TX LAN network interface card
- HP TopTools device management system
- Support for remote boot protocols such as RPL, NetWare, BootP, and DHCP
- Windows 98 or 2000

# The computing solution for your

## The Deskpro EN Series

**NEW! Intel® Pentium® speeds up to a blazing 733MHz!**

Superb design makes the Deskpro EN Series easy to service and upgrade—and that means lower service costs and less nonproductive down time. The secret is a modular chassis that allows components to quickly snap into place.

- Intel® Pentium® III processor at 600 to 733MHz with MMX™ technology
- 6.4 to 13.5GB hard drive
- 512KB L2 cache or 256K on Intel 820 chipset machines
- 64 to 128MB RAM expandable to 512MB or 768MB
- Compaq Premier Sound
- 32X or 40X CD-ROM drive (select models)
- 10/100 Network controller card or Pro100t (select models)
- ATI Rage PRO Turbo AGP 2-X
- EPP Parallel, 2 serial, 1 USB port
- Windows® 95, Windows® NT or Windows 2000 (model dependent)

UP TO  
**733**  
MHz

### Superior manageability!

As an engineering company, Compaq pioneered manageability and has led the industry ever since the early 90's by developing and driving industry standards and standards-based systems management. Compaq's intelligent manageability gives you the power to manage your network from a single console. Standards based solutions allow you to:

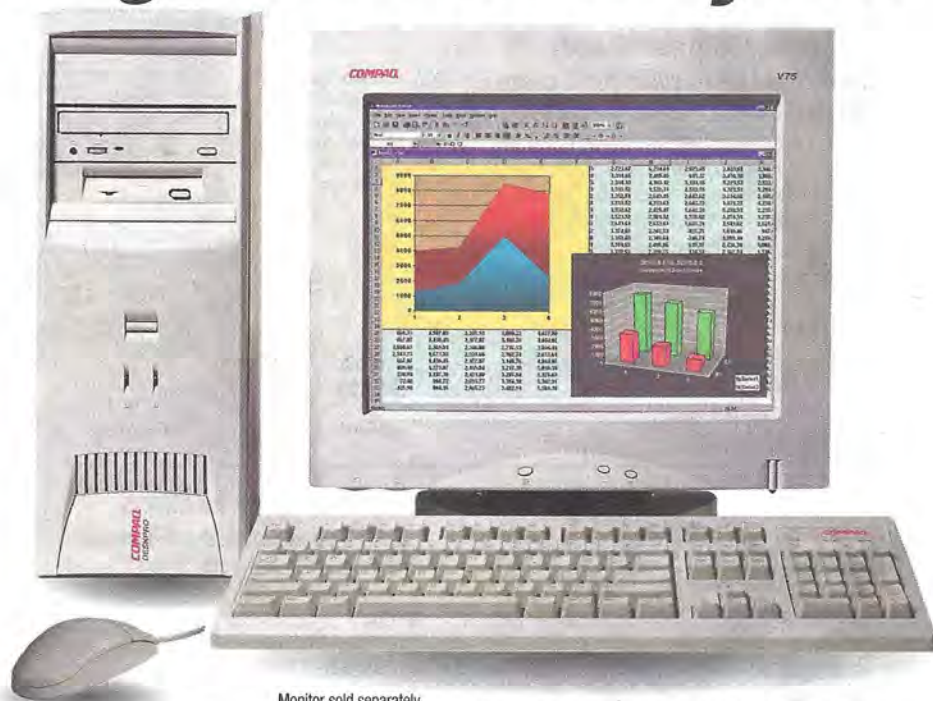

- Track systems and internal components
- Prevent, predict, and quickly recover from problems
- Control system configurations, security and upgrades

And the Compaq restore CD simplifies reinstallation of the original image, if necessary. Intelligent manageability features such as these, make it easy for I.S. Managers to maintain their system.

### Easy service and upgrade!

The tool-free chassis is easy to service and upgrade, lowering your total cost of ownership. The secret is a modular design that allows components to snap into place. Premier serviceability features on the Deskpro EN include:

- Software controlled locking mechanism permits remote lockdown of the hood to prevent tampering
- Quick-release cover latches for easy hood removal—just push in the latches and slide off the cover
- Tilt drive cage allows easy access to all drive bays without the need for drive rails or brackets

Monitor sold separately

- Removable expansion card cage with lift levers lets you slide new cards in and out
- Slide-out system board has no cables to be disconnected
- Green color-coded tabs for easy component identification and removal

Achieve the competitive advantage a well-run enterprise provides with the Deskpro EN Series! Each one is an office powerhouse designed for manageability, easy serviceability, consistency, and stability.

## business!

### The Deskpro EP Series

**The ultimate in price, performance and flexibility!**

The Deskpro EP delivers true value by providing the ultimate in desktop quality and reliability. It offers a broad range of innovative, cost-effective and flexible solutions. Best of all, the Deskpro EP is backed by the resources of the world's number one PC manufacturer—Compaq. Industry-standard components and the Compaq tradition of extensive testing ensure interoperability, and reliability.

#### Maintenance and upgrades are fast!

Deskpro EP Series computers increase the productivity of your service team.

- Intuitive and flexible design—Desktop or Minitower
- Quick release drive
- Open design provides easy access to all major components
- Superior cable management

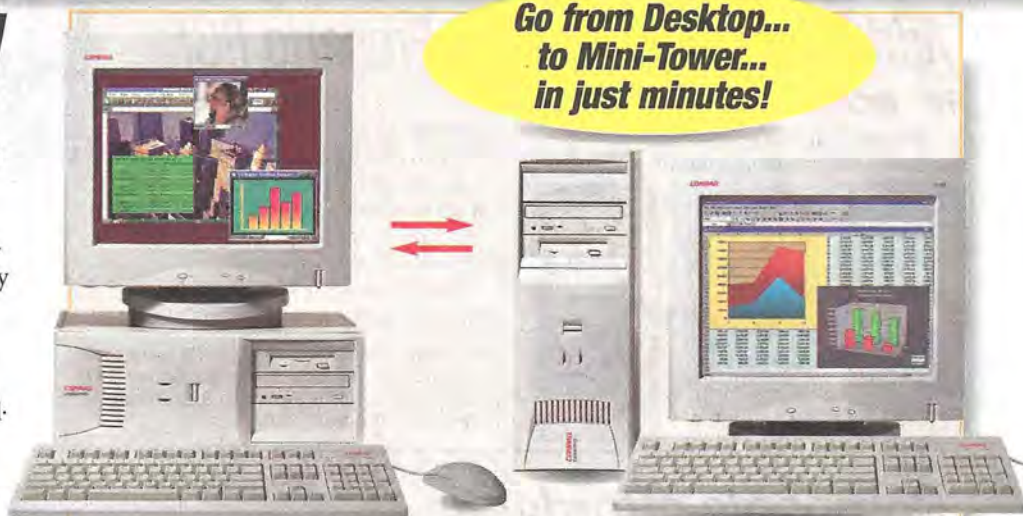

#### Enhanced Intelligent Manageability

Intelligent Manageability provides a rich set of tools that allows businesses of all sizes to better manage their IT resources. It saves you money throughout the entire life of the system.

- Fast configuration and deployment
- Asset tracking and security
- Fault notification and recovery
- Software updating and management

#### Deskpro EP Specifications

- 600 to 667MHz Intel® Pentium® III processor with MMX™ technology or 500MHz Intel® Celeron processor
- 512KB L2 cache (256KB on selected models) on Pentium III models 128KB on Celeron models
- Up to 133MHz Front Side Bus
- 64 or 128MB of RAM exp. to 512 or 708MB (768MB on select models)
- 6.4 to 13.5GB Smart II hard drive
- 32X or 40X CD-ROM (select models)
- 3.5" 1.44MB floppy disk drive

**Go from Desktop...  
to Mini-Tower...  
in just minutes!**

The unique ATX chassis allows the Deskpro EP Series to be configured as either a desktop or mini-tower and adapted to a variety of different workspaces.

You simply slide the external drives (floppy and CD-ROM) out of the chassis, rotate 90 degrees, then slide them back in!

- Sound Blaster PCI 128 Audio Sound Card with internal PremierSound
- Flexible ATX desktop mini-tower chassis
- AGP graphics port
- 8MB of video RAM, expandable to 16MB (on selected models)
- ECP Parallel, 2 serial and 2 USB ports
- Intelligent Manageability provides easy tracking and management
- Compaq Restore CD restores the hard drive to the original software image in the event of hard drive failure
- 6 slots and 5 bays
- Service-friendly, toolless design allows for quick, easy removal of all mass storage devices
- Dual Installation Windows 95/98, Windows 2000 or Windows NT 4.0 (model dependent)
- 3 year limited warranty

## Netfinity 3500 M20

**The confident choice for file and print or entry-level application serving!**

The Netfinity 3500 M20 series redefines value by delivering dual-processor technology at traditional uni-server prices. It's easy to deploy, easy to use and easy to maintain, helping you control IT costs.

The 3500 M20 is based on Netfinity X-architecture, a design blueprint which leverages existing, innovative IBM

technologies to build the most powerful, scalable and reliable Intel processor-based servers for business.

- Up to two Intel® Pentium® III processors 667 to 800MHz with 256KB full-speed Level 2 cache
- Up to 2GB ECC SDRAM memory
- Ultra160 SCSI controller
- Internal tape backup supported
- 3 year limited warranty

starting at **\$1,829** #845143

## Netfinity 3000

**The low cost server for small businesses or workgroups!**

This single processor server is packed with power and quality features that support file and print serving, workgroup productivity applications and shared Internet access for a reliable, affordable network foundation.

- One Intel Pentium® III processor up to 700MHz
- Up to 768MB memory

- 72.8GB maximum internal storage
- Wide Ultra SCSI controller
- Total of 6 expansion slots (5 available)
- Integrated 10/100 Ethernet
- 3 year onsite limited warranty
- Predictive Failure Analysis support on hard disk drives

Lotus Domino Application Server with five Lotus Notes collaboration client licenses and five client access licenses included at no additional charge. Offer ends December 31, 2000.

## Netfinity 5600

**Minimized downtime, maximized satisfaction for business critical serving!**

High-performance departmental 2 way server with fast, capable performance for general business applications, e-mail, Web serving, clustering or file and print.

Achieve mission-critical reliability with hardware, systems management and support design that is intuitive and easy to use, customize and scale up. Satisfy your requirement for system uptime with X-architecture-derived technology such as Active PCI, hot-pluggable components, Light-Path Diagnostics and Predictive Failure Analysis for rapid pre-failure alerting and maintenance.

**Maximum computer networking power in a 2-way, rack-dense package!**

## Netfinity 4000R

**Rack mounted server solutions!**

The remarkably slim size and large memory capacity make this a superior front-end Web server for Internet service providers. As a rack-dense server, the 4000R is also excellent for any business with space constraints.

### High-rise housing:

You can pack up to 42 of these slim 1U units into a standard 19" rack. The Netfinity 4000R offers so many features, it's hard to believe it is only 1.75" thick. For example—two-way Pentium III processing, memory scalable to 2GB, room for two 9.1GB or 18.2GB SCSI-2 hard drives and

Slim High CD-ROM capability. Dual 10/100 Ethernet is integrated, leaving a full-size PCI card slot open for flexibility.

- Only 1.75" slim ■ Rack-optimized
- File and print serving
- Shared Internet access
- Supports 1 and 2 Pentium® III processors

## Save time and money for your business

**We customize our Web site to your business needs.**

**W**e offer our qualified business customers a customized Web site, tailored to your company's specific needs.

- A tailored Web site saves you money and time
- You don't spend time searching through information that doesn't apply to your company
- Provides concise and powerful resources to allow you to control your business purchases

**Your Client Access Page is an invaluable resource:**

- Customized pricing—reflects your own specific pricing structure
- Separate employee and company purchase programs
- Online quotes—build the order you are considering and we provide a quotation for your internal requisition process
- Order placement—use your company's open account or credit card to place online orders
- Order Status—visit any time to see your order history and the status of current orders
- Customized access—you decide which members of your staff will have access to the site, and their level of permissions to view prices and place orders

Talk to your Account Executive today about setting up your company's Client Access Page.

# Next generation servers from

## ProLiant ML350 Series Servers

**Incredible power based on Intel's next-generation processors!**

- Intel® Pentium® III processor at 600 or 733MHz (dual processor capability)
- Integrated 256KB Level 2 cache (Full Speed)
- Compaq 10/100 TX UTP Controller (embedded) on the PCI local bus

- Internal mass storage capacity of up to 72.8GB (non hot-pluggable drive cage only)
- 128MB 100MHz registered SDRAM DIMM memory standard, upgradable to maximum 2GB
- 3 year, on-site limited warranty

starting at **\$2,419** #58232  
or lease for as low as \$68

**ProLiant ML350 Series Servers** Your Web part number for information or ordering is #58232

## Engineered for high availability! ProLiant ML530 Series Server

**Protect your investment with the upgradable ProLiant ML530!**

If you require the latest technology, the ProLiant ML530 gives you Intel's Pentium® III processor for enhanced performance. In addition, Compaq now offers a 4-way Pentium III Xeon upgrade program for the ProLiant ML530.

- Highly Parallel System Architecture for improved system bandwidth

With hot-pluggable redundant power supplies, you don't need to shut down to install a new unit.

- Intel® Pentium® III processor at 600 to 800MHz (dual processor capability)
- 512KB level 2 writeback cache
- 100MHz GTL bus design
- ECC-protected memory bus and cache
- 128 or 256MB RAM expandable to 4GB
- Five PCI and three shared PCI/ISA slots
- Internal storage capacity up to 254.8GB

## Ultra Dense Rack Server Solutions!

## ProLiant DL360 Server

### Performance

- 550MHz or 800MHz/256K cache Pentium® III processors
- RCC 3.0 LE Chipset, supporting 133MHz front side bus (100MHz in 550MHz model)
- 128MB of 133MHz ECC Registered SDRAM DIMM (100MHz in 550MHz model) expandable to 4GB
- Dual peer PCI bus architecture
- 2 PCI slots, one 64-bit, one 32-bit, all running at 33MHz
- 2 x 1" Wide Ultra2/Ultra3 hot plug SCSI hard drives bays
- Two 10/100 Mb/s Fast Ethernet NICs with WOL capabilities

### Expandability and Flexibility

- Up to two Pentium® III processors (in 800MHz model)
- Up to 4 GB SDRAM memory support
- Up to 36.4 GB hot-pluggable storage capability standard
- Hot-pluggable drives
- Integrated Smart Array Controller for RAID 0 & 1 functionality

- Optional high performance
- Standard redundant NIC capability
- Smart Array controllers
- Support for tool-free, in-the-rack access to all system components
- Optional Remote Insight Lights-Out Edition
- Compaq management tools such as SmartStart, Compaq Management Agents, Compaq Insight Manager, Compaq Insight Manager XE, ActiveUpdate, Rack Builder Pro, Info

Messenger, and ActiveAnswers improve customers' productivity, uptime and implementation time

# HP servers built to grow your business!

## HP NetServer E60 Series

**The best solution for businesses with little or no in-house IT support!**

HP makes setting up a server easy by providing assistance every step of the way—from ordering to installation to configuration. With a smooth, fast set-up, the HP NetServer E60 helps workgroups start boosting their productivity and efficiency almost immediately.

- Up to two Intel® Pentium® III processors 500MHz, 550MHz or 600MHz with 512K cache processor

- 64MB ECC SDRAM std.; exp. to 1GB
- 4MB standard SDRAM video memory
- Integrated dual-channel Ultra/Wide SCSI
- Integrated HP NetServer 10/100TX LAN Adapter
- Built-in I/O ports—one 25-pin parallel, two 9-pin serial, video, mini DIN keyboard and mouse
- Integrated HP SureStore T20Xi with 10GB native capacity (selected models)
- Six total slots, five PCI, one PCI/ISA combination

starting at **\$1,279** #810564

Supports Novell Netware® and Novell Netware for Small Business, Microsoft Windows NT and more!

# Easy to set up, backup, troubleshoot and expand!

## HP NetServer E800

**The easy to operate server your business can depend on!**

The HP NetServer E800 provides an excellent value for small to medium-sized workgroups. It is designed to let you focus on your business, not your computing system.

**New Model!**

The HP SureStore DAT24i is a powerful data storage solution providing exceptional backup performance and reliability (on selected models).

The HP NetServer E800 monitors and corrects itself. It comes with error checking and correcting (ECC) memory and Automatic Server Restart (ASR). If your attention is needed, the HP TopTools for Servers Auto Alert will notify you via an onscreen message and suggest potential issue resolutions.

### Features

- Easy to set up with HP Navigator for guided setup and installation to get your server up and running quickly
- Fully integrated backup solution available on certain models, including the HP SureStore DAT24i tape drive
- HP TopTools simplifies troubleshooting with an intuitive, Web-based interface

### Specifications

- Up to two Intel® Pentium® III 733MHz, 800MHz, or 866MHz processors with 133MHz front side bus
- 256KB on-chip L2 cache
- 128MB buffered ECC SDRAM standard, up to 2GB (4x512MB) maximum
- Seven PCI slots (five 32-bit and two 64-bit slots)
- Integrated, dual-channel Ultra2 SCSI controller
- Seven shelves (five available):
- Up to 145.6GB max. internal storage
- 4MB SDRAM video memory
- 40X CD-ROM drive
- 3.5", 1.44MB floppy disk drive

starting at **\$2,049** #848718

## HP Netserver LC2000

**Brings essential uptime-protecting features at a very accessible price!**

Designed to be simple to install, configure, and upgrade, the HP NetServer LC 2000 delivers value to corporate workgroups, branch offices, and quickly-growing small businesses.

The HP Netserver LC2000 is the rock-solid workgroup server your growing business can depend on. It brings essential

uptime-protecting features that include up to six hot-swappable disk drive bays, standard redundant hot-swappable fans, optional hot-swappable redundant power supplies, support for redundant NICs and duplexing.

### Specifications

- Up to two Intel® Pentium® III 533MHz, 600MHz, 667MHz, 733MHz or 800MHz processors, with 133MHz front-side bus

starting at **\$2,299** #840685

- 128MB standard with up to 1GB SDRAM
- Supports 9.1GB, 18.2GB, or 36.4GB 10,000rpm Ultra2 SCSI disk drives
- Supports Microsoft® Windows NT® 4.0, Windows® 2000; Novell NetWare 4.2, 5.0; Red Hat Linux; SCO OpenServer and UnixWare; IBM OS/2

Simple to install and upgrade, all HP NetServer LC 2000 components are easily accessible and designed for tool-less service—accented by color-coded “touch points.”

## HP NetServer LH 3000

The HP NetServer LH3000 is a powerful departmental server you can rely on today and grow tomorrow. Includes a full array of high availability features for maximum uptime. Features flexibility, expandability and extraordinary performance.

- Up to two Intel® Pentium® III 533MHz, 600MHz, 667MHz, 733MHz or 800MHz with 133MHz front side bus
- 256KB on-die write-back cache
- 128MB high-performance PC133 ECC SDRAM standard, 4GB max. capacity
- Supports 9.1GB and 18.2GB Ultra2 and Ultra3 SCSI disk drives

# Networking power made simple!

## 3Com Fast Ethernet Adapters

The 3Com EtherLink 10/100 PCI Network Interface Card for complete PC management combines all of the performance, reliability, compatibility, and intelligence of 3Com's current EtherLink 10/100 PCI products with a new suite of enhanced desktop management.

Management features include Wired for Management compliance, an integrated Managed PC Boot Agent, Remote Wake Up, DMI 2.0 support & ACPI compliance.

- Alert functionality allows remote management stations to detect a PC or docking station

3Com's network interface cards offer the industry's best reliability, compatibility and performance. And 3Com's Dynamic Access technology adds intelligence to solve information system problems.

- Supports management features in current and future operating systems and desktop management applications
- Parallel Tasking® II technology lowers CPU utilization and increases application performance
- Remote Wake Up lowers your cost of ownership with remote and after-hours maintenance of PCs

- Uses the IEEE 802.1p standard to prioritize time-sensitive data
- Desktop Management Interface (DMI) lets you use network management software to remotely gain PC resource and inventory information

## SuperStack means a super-fast network connection!

3Com offers a wide range of Superstack II products to fit every environment.

### SS II Dual Speed Hub Family

**Cost effective migration to Fast Ethernet!**

The SS II Dual Speed Hub 500's provide the power of shared Fast Ethernet with the flexibility to connect Ethernet devices on the same hub. 10/100 auto-sensing provides transparent support. The 2-port switch ensures seamless integration of 10BT and 100BTX users in the same hub.

As a scalable solution, users can add management when required and stack with existing SSII PS Hub 40/50s.

starting at **\$659** #27194

## Cut loose from the cables with 3Com AirConnect!

### The freedom of new possibilities!

At last, being in touch with your network doesn't have to mean being chained to your desk. With a 3Com® AirConnect® 11 Mbps Wireless LAN solution, mobile workers can enjoy simple, reliable network access when and where they need it. It's the easiest, most powerful solution yet for unfettered productivity!

AirConnect wireless LAN solutions include all the features you need:

- **Fast**—AirConnect wireless LAN delivers network speeds of up to 11 Mbps
- **Reliable**—Dynamic rate shifting and load balancing optimize connectivity

- **Easy**—Site Survey Utility and PowerBASE-T simplify network setup
- **Manageable**—The same SNMP and Web-based tools used to manage your wired LAN can be used to manage your wireless LAN
- **Mobile**—DHCP and Extended Roaming features facilitate seamless companywide access
- **Secure**—Access-control capabilities ensure network and data security. Both 40- and 128-bit encryption and the RC4 algorithm are also available
- **Standards-based**—AirConnect is IEEE 802.11b and Wi-Fi™ compliant, ensuring standards-based interoperability

With the AirConnect Wireless LAN, visiting employees to branch offices can quickly check e-mail or exchange information without making a wired network connection.

**only \$1,795** #814156

Your Web part number for information or ordering is #814156

### Air Connect® Wireless LAN Starter Pack Get started the easy way in the world of wireless networking!

The AirConnect 11Mbps Wireless LAN Starter Pack comes with everything you need. The pack includes a 3Com AirConnect 11Mbps Wireless LAN Access Point (wireless hub) and three 3Com AirConnect 11 Mbps Wireless LAN PC Cards with connection hardware and software.

- Dynamic rate shifting and Extended Roaming features optimize performance
- Site Survey Utility and the PowerBASE-T module ensure easy installation

### Air Connect® Access Point

The Access Point is a wireless hub that acts as a bridge between the Ethernet backbone of your wired LAN and your wireless client.

Each Access Point includes a PowerBASE-T module, which supplies the access point with both data connectivity and the DC power it requires. This gives you the cost-saving option of running a single 10BASE-T line out to it.

- Built-in diagnostics and power-up self-check
- Upgradable firmware
- Antenna diversity
- Support for SNMP

Typically affixed to a ceiling or wall, the access point sends and receives data from up to 63 simultaneous users (with AirConnect wireless PC Card-equipped notebooks) within a radius of 300 feet.

**only \$911<sup>99</sup>** #840446

Your Web part number for information or ordering is #840446

### Air Connect® Wireless PC LAN Card The wireless solution for notebooks!

The AirConnect™ Wireless LAN PC Card opens a new era of mobility for your enterprise network. Working with the 3Com AirConnect 11 Mbps Wireless LAN Access Point, the AirConnect PC Card gives your workforce seamless connectivity to the network throughout the entire campus.

- Type II PC Card for notebooks
- 11 Mbps data transfer speeds
- Can be used with any 802.11b standards-based access point

Without having to pull cables or make a physical connection, notebook users can set up conferences in minutes, and travel between offices or buildings without breaking their connections.

## It's time to get your office networked!

Your company's computers are far more powerful when you link them together in a network.

### Networking quickly pays for itself!

- Reduce your equipment expenses by sharing peripherals like printers, scanners and modems
- Use one modem and ISP account for everyone's Internet access
- Quickly transfer files, send email and collaborate on projects
- Back up all your computers over the network—all at once
- Share database information and keep everyone informed with a company intranet
- Access the company network from home rather than come in sick, stay late or work weekends

### How Hard is It?

The latest generation of hardware and software is designed for network operation. All you need to do is plug network interface cards (NICs) into your computers and connect the cables. Plug-n-Play NICs are automatically configured for you by Windows.

### Network Solutions Experts on Staff!

We have over 25 Certified Networking Solutions Experts on staff. Our team can help you get your company network up and running with a solution that fits your networking needs.

Any questions? Call us today for more information on how we can save you money with networking!

## The leader in remote access solutions!

### Cisco 1750 Modular Access Routers

The Cisco 1750 modular access router is designed for small to medium businesses and small branch offices. It offers flexibility and investment protection with its modular architecture, voice, data and VPN applications.

The 1750 router allows you to cost-effectively upgrade or add WAN and voice

*The Cisco 1750 helps reduce the complexity of deploying and managing branch office solutions by offering integrated network services and functions.*

interfaces to accommodate growth and changing requirements.

- Integrated voice, fax and data
- Integrated CSU/DSU
- Secure Internet, Intranet and Extranet access with optional firewall
- VPN access
- Future Broadband access

### Cisco 800 Series Routers

The Cisco 800 Series router provides enhanced network security and reliability through the power of Cisco IOS software. It is recommended for small offices of up to 20 users, connecting every user to the Internet or to the corporate LAN with one ISDN, IDSL or serial connection.

- Reliable network access via ISDN, IDSL, Frame Relay, leased lines (serial speeds up to 512K bps), X.25 or asynchronous dialup connections
- Industry-leading security
- Field-upgradable memory and software options
- Managed Network Services as managed network security, virtual private networks (VPNs) and point of sales (POS)

*The Catalyst 3500 Series Switches are designed to assist network managers in dynamic mid-sized businesses who value top performance and superior manageability.*

### Catalyst 3500 Switches

The Catalyst 3500 Series XL is a line of scalable, stackable 10/100 and Gigabit Ethernet switches that deliver premium performance, manageability and flexibility—all with unparalleled investment protection.

In addition to stacking support, the Catalyst 3500 Series XL ships with revolutionary new switch clustering technology which allows management of all Cisco switched ports from a single IP address and provides interconnected switches with an independent high-speed stacking bus that preserves valuable desktop ports.

- Two built-in BGIC slots for gigabit connectivity
- Includes Web-based management

# Cisco Aironet 340 series wireless LAN products—the wireless future is here!

**The wireless networking solution with the throughput and security that users demand from a business LAN.**

The Cisco Aironet 340 series of wireless LAN (WLAN) products provides a standards-based, field proven, high-speed wireless networking solution for both in-building and building-to-building WLAN applications. Aironet 340 products deliver a complete solution to enterprises that require mobility, flexibility and freedom.

**Seamless integration with your wired Ethernet network!**

Cisco Aironet products can be seamlessly integrated into wired Ethernet networks, and they provide excellent invest-

ment protection through full compliance with the IEEE 802.11b wireless standard, as well as unmatched price performance.

These products utilize direct sequence spread spectrum (DSSS) technology to deliver up to 11 Mbps throughput, and offer up to 128-bit wired equivalent privacy (WEP) for data security that is comparable to traditional wired LANs.

Aironet 340 products provide value-added features that are ideal for:

- IT professionals or business executives who need mobility within the enterprise, perhaps in addition to a traditional wired network
- IT directors who need flexibility for

information systems. With wireless-enabled client PCs, users with laptop, notebook, and hand-held devices can move freely within a campus environment while maintaining uninterrupted access to centrally located data.

Now with 11 Mbps of bandwidth, the benefits of wireless do not come at the expense of the data rate and throughput required by data-intensive applications. With the Cisco client adapters, users don't sacrifice anything.

**Dual antennas for optimum reception!**

All Aironet 340 series adapters feature antennas that provide the range and reliability required for data transmission and reception in larger indoor facilities. The internal dual diversity antennas of the PC adapter automatically toggle to select the

and the wireless CSMA/CA protocol, seamlessly integrating wireless functionality into a wired infrastructure. The Aironet 340 series access points may be configured locally via serial port or remotely over the LAN; they provide the option of a Web browser or console management interface.

Finally, for the most challenging installations, Cisco provides access points with dual reverse polarity TNC connectors. These connectors allow the planner to select from more than 20 different omnidirectional, patch, yagi, and parabolic antennas to engineer the coverage needed within almost any facility.

- Manageability
- Easy integration and configuration
- Multiple configuration options
- Fully compliant with 802.11b standard

All Cisco Aironet 340 series products are excellent complements or alternatives to the reliable, best-of-class, wired LAN products from Cisco.

frequent LAN wiring changes, either throughout the site or in selected areas

- Company sites that are not conducive to LAN wiring, such as older buildings, leased space, or temporary sites
- Companies that need the flexibility of a line-of-sight, building-to-building bridge that avoids expensive trenches, leased lines and right-of-way issues

antenna receiving the strongest signal as the user moves within a facility.

To further facilitate installation, Cisco provides a suite of integrated utilities for Windows-based configuration, management, and diagnostics.

- High speed, Long range
- Excellent price/performance
- Full-featured utilities and robust management
- Secure transmission
- Field-proven reliability
- Fully compliant with 802.11b standard

## Aironet 340 Series Client Adapters

**Mobility, freedom and flexibility!**

Cisco Aironet 340 series client adapters couple local-area networking with the bandwidth required by enterprise-wide

Up to 128-bit wired equivalent privacy (WEP) encryption security is available to provide data security that is comparable to traditional wired LANs.

## Aironet 340 Series Access Points

**Suits a wide range of environments!**

Cisco Aironet 340 series access points perform functions similar to a hub in a wired network; in addition, they add the vital, price/performance benefits of security, management features, and mobility services. For example, the innovative roaming functionality provided by Aironet access points enable users equipped with wireless client adapters to freely move throughout a facility while maintaining network access.

The Aironet 340 series access points integrate easily into 10- and 100-Mbps Ethernet networks via a single autosensing RJ-45 port. The access point acts as a bridge, forwarding at media speed between the Ethernet CSMA/CD protocol

To meet the security needs of organizations around the world, access points are available with up to WEP-128 encryption.

A low cost, managed 24-port, expandable 10/100 Ethernet desktop switch ideal for low cost migration to 10/100 switching.

- Stackable
- 24 10/100Base-TX autosensing ports
- Open module slot for Gigabit stacking and uplinks

- Managed
- Low, industry-leading price
- VLAN support: dynamic configuration of VLAN tagging through standard 802.1Q provides security between workgroups
- Free HP TopTools for Hubs & Switches effective, easy-to-use network management software
- Web interface lets you monitor your whole network at once up to 1,500 segments simultaneously from any PC on the network with a Web browser

Your Web part number for information or ordering is #814456

## ProCurve 1600M

An affordable high-speed switch that offers fast, reliable, manageable connectivity and is ideal for easy migration to fast performance and for server farm connectivity.

- 16 10/100Base-TX autosensing ports and one open module slot
- Managed
- 10/100/Gigabit performance
- Industry-leading price
- Port monitoring: allows you to monitor traffic using a switched port so you can view several ports at one time with a network analyzer

starting at **\$1,082<sup>99</sup>** #840258  
Your Web part number for information or ordering is #840258

## ProCurve 224M

Desktop switches that provide low-cost, dedicated 10Mbps Ethernet switching performance to the desktop with high-speed 100Mbps connections to a server or network data center.

- 24 or 12 10Base-T ports; one autosensing 10/100Base-TX autosensing port
- One open transceiver slot for adding and additional 10/100Base-TX port or a 100Base-FX port
- Managed
- Lifetime warranty: for as long as you own the product
- Two 100Base-T ports: for high-speed server connection or uplink
- Full duplex on all ports: for maximum performance
- Functions as a workgroup switch: segments 10Mbps hubs, cutting down on collisions and increasing the performance of the shared network

starting at **\$656<sup>99</sup>** #814419

## EZNet for easy networking!

### 10/100 Switches

EZNET 10/100 switches are low cost, flexible switches designed to increase performance by bringing dedicated 10 or 100Mbps bandwidth to your network. All ports feature auto-sensing speed and full duplexing with LEDs to monitor network activity.

- 1.6, 3.2 or 4.8Gbps aggregate bandwidth
- Speeds of up to 200Mbps per port
- Filtering and Forwarding at full wire speed on all ports

EZNET switches require no complicated installation or setup procedures!

starting at **\$96<sup>99</sup>** #52565

## Networking quality at a low price!

### Asound 24-Port Switch

Now you can get high quality Ethernet switches, hubs and NICs at a great price. See your company's productivity increase by up to 10 times upgrading from 10Base-T Ethernet to 10/100 Ethernet.

Because this switch supports 10BaseT as well as 100BaseT, you can upgrade one component at a time. Start upgrading with this dual speed switch, then upgrade ethernet cards in your existing PC at the pace your budget or needs allow.

- Complies with IEEE 802.3/802.3u
- 10/100 Mbps auto-negotiation
- Rich diagnostic LEDs

Half the price of the leading 24-port switch, with all the quality you expect from a leading manufacturer.

- Supports 10/100 Mbps half/full duplex switch ports
- MDI-X/MDI Selection: Push button switch
- Network bridging function: Filtering, forwarding and learning
- Store and forward architecture
- 2K MAC address entries table, 1M bytes queue buffer
- Internal power supply
- 19" rack-mount design

### Asound Dual Speed LAN Card

Asound makes this affordable for people looking to upgrade from their older 10BaseT network to 100BaseT. What does that mean to your business or home network? It means your network can function up to 10 times faster. Asound provides a high-performance networking solution that is powerful yet easy to use.

Our Ethernet 10/100 Mbps NICs for the enterprise deliver the highest performance, reliability, and compatibility available today.

- 32-bit, PCI bus master capability
- 10 Base-T/100 base-TX
- Supports Boot ROM interface
- Supports LEDs for LINK, TX/RX indications
- Half/Full duplex capability
- Supports DOS, OS/2, Lantastic, WFW3.1, Win95, 98, NT, 3.51, 4.0, 5.0
- SCO Unix driver
- Linux driver
- Unix Ware 7.0

## Add FirePower to your PC!

Update your older PC with the PCI slot based OrangeLink FireWire PCI Card. With the addition to your system, you can take advantage of the latest high-performance IEEE 1394 peripherals, including digital cameras and portable VST hard drives.

The major benefit of the OrangeLink FireWire technology is its ease of use. Imagine automatic configuration, no device IDs or terminators, simple to use cables, and of course, "hot-pluggable" connectivity. Consider a FireWire disk drive for example. You can disconnect it

from one computer and connect it to another no need to power down or restart, or even use a power cord. You can move whole databases around your workgroup "live"!

- 400Mbps second IEEE 1394 compliant (2) external 6-pin ports
- Includes 6 ft. 6-to-4 pin cable
- Includes uLead video studio DV for Windows 98SE
- Windows 98 Second Edition and Windows 2000 compatible

## InBusiness Print Station

The Intel InBusiness Print Station is the easy way to share printers over a network. The Print Station supports up to two printers so connection costs are nearly half that of single port solutions.

With the Print Station, printers can now be located anywhere on your network. You can place your printers in an area that is convenient for the people in your office instead of attaching printers to a PC and burdening that PC with all the printing tasks.

### Easy Printer Sharing

The Print Station is independent of your PC, so it doesn't require memory resources from a shared workstation during the print cycle. This means that sharing printers with the Print Station will increase your office productivity.

### Simple Setup

A simplified wizard makes the product easy to install and configure in any Windows 95, Windows 98, or Windows NT environment.

### Flexible

The Print Station supports up to two printers so connection costs are nearly half that of single port solutions, plus now printers can be located anywhere on your network. This means that you can locate your printers in an area that is convenient for the people in your office instead of attaching printers to a PC and burdening that PC with printing tasks.

### Compatible

The Print Station supports virtually any parallel port printer and will work on either a 10 or 100 Mbps network using an auto-negotiation for easy installation.

### Specifications

- Supports two printers with a single 10BT or 100BTX connection
- Connects printers to the network independent of your PCs
- A simple to use wizard makes the Print Station easy to install and configure in any Windows 95, Windows 98 or Windows NT environment
- Supports virtually any parallel port printer

## SLASH YOUR SOFTWARE COSTS!

**No pools, no points, no levels—all you need to qualify is buy 5 licenses of any Microsoft product or combination of products!**

With a minimum of five Microsoft licenses you can qualify for Open License. For example, if you have two personal computers, you can qualify for Open License by purchasing two licenses of Microsoft Office 2000, two licenses of Project 2000, and a single Windows 2000 upgrade. You may also reorder software licenses in any quantity. Open License allows you to license what you need, when you need it.

#### License Types

- New Licenses
- Version Upgrades
- Competitive Upgrades
- Upgrade Advantage (providing protection for future upgrades)

Microsoft Open License saves you money by not including disks and documentation. You pay for the license rights, not the expense of additional packaging. Or, if you don't have media for the software you want to install, Open License gives you options. You may purchase one legal copy of retail product or order the disk and documentation set when you place your license order.

## Meet the demands of e-commerce!

### Windows 2000 Advanced Server

#### The features of Windows 2000 Server with multiprocessor support!

Microsoft® Windows® 2000 Advanced Server adds integrated scalability and availability features to support today's most critical and demanding e-commerce and line-of-business applications.

Building on the integrated set of technologies in Windows 2000 Server, Windows 2000 Advanced Server provides advanced symmetric multiprocessing (SMP) support, clustering, and load-balancing technologies—so you can run more demanding e-commerce and line-of-business applications.

- Scale out using Network Load Balancing to distribute incoming traffic across server farms

- Rolling upgrade support reduces planned downtime for maintenance
- Scale up by utilizing the latest server hardware for up to 8-way SMP and up to 8GB of RAM
- Two-node, high-availability clustering ensures critical applications are up and running on demand

# Incorporate the Internet into your business!

## Windows 2000 Server

**The multi-purpose network operating system for businesses of all sizes!**

Microsoft® Windows® 2000 Server, the successor to Windows NT Server 4.0, is the fastest selling network operating system. It provides core file, print, Web, application, networking and communication services for business of all sizes.

Windows® 2000 Server is the easy way to Internet-enable your business. Building on the strengths of Windows NT Server 4.0, Windows 2000 Server sets a new standard for how well an operating system can be integrated with standards-based directory, Web, application, network, file and print services, powerful end-to-end management and reliability, to provide the best foundation for integrating your business with the Internet.

**The "Business Internet" starts here!**

- Easy to deploy, configure and use
- Provides a platform for building and running rich Web-based solutions
- Internet scalability and performance
- Securely extend to employees, partners and customers
- 4-way symmetric multiprocessing and support for systems with up to 4GB RAM

- System architecture improvements for higher server uptime
- Fault tolerant and redundant systems for increased availability
- Dynamic System Configuration means less down time for maintenance
- Centralized management for lower total cost of ownership
- Supports the latest networking and peripheral hardware, including USB devices, high bandwidth and directory-enabled networking devices

## Ethernet Conversion Modules

MILAN Ethernet media conversion modules are a family of UTP (Unshielded Twisted Pair) to multi-mode fiber (MMF) or single mode fiber (SMF) media converters for Ethernet environments.

When installed into the MILAN Technology Media Conversion System, these modules offer

**\*Up to  
\$50 Rebate!**  
Check www.milan.com  
for details.

cost-effective means to convert a 10BASE-T hub, switch or router port to a 10BASE-FL port when needed.

# Control multiple systems with Belkin OmniView KVM!

## OmniView™ Matrix 2x8

**Control 8 servers with one or two sets of monitor, keyboard and mouse!**

The OmniView™ Matrix 2x8 allows two separate users control over eight servers with two sets of keyboards, mice, and monitors. This 8-port KVM switch can easily be expanded for dual user access of up to 128 servers.

- Dual Bus technology allows two users simultaneous access of 8 servers

- On-screen display allows you to label and select ports easily and hassle-free
- Standard connectors for cost-effective and simple cabling.
- Clean and clear video resolution, up to 1600 x 1200 pixels at a 65-Hz refresh rate
- Compatible and certified with Windows® 95, 98, 2000, Windows® NT, Novell® Netware 5, TurboLinux and Linux®
- Supports Microsoft® IntelliMouse® PRO
- Belkin one-year warranty

"I can't monitor all eight of these servers by myself...I need help!" Sound familiar? With the OmniView Matrix, one or two users can control eight servers, so you can get the help you need.

**only \$629<sup>99</sup>**

#56685

## OmniView™ Pro

**Advanced on-screen menu for the LAN professional!**

Let the OmniView™ Pro organize your servers for you with its on screen display. With the OmniView Pro you can label attached servers for easy selection.

- Control 16 servers with one PS/2 keyboard, mouse, and VGA monitor.
- Expandable to support up to 256 servers
- Uses standard connectors for cost-effective and simple cabling
- Video resolution, up to 1600 x 1200
- Includes 19" rack mounting kit

The OmniView™ PRO manages up to sixteen servers with one keyboard, mouse, and monitor. The 16-port KVM switch features an on-screen menu for labeling and selecting up to 256 attached servers.

## The extraordinary information tool that quickly inputs any printed documents into your word processor!

### QuickLink Pen

The QuickLink Pen is a state of the art, hand-

*Eliminate typing forever! Slide the QuickLink pen over any document to capture the text!*

held optical scanner with built-in OCR capabilities. Just glide the pen over any printed document such as a letter, memo or business card to scan in the information. The image is instantly converted to a standard text file for use with any word processor. You can also transfer the text to your PC, PDA or cell phone.

The QuickLink Pen holds up to 1000 pages of text and can scan in 8 languages.

■ Capture, store, edit and transmit any printed text to your word processor

■ Scan in business cards and use the QuickLink Pen as your address book—or transmit the information to Microsoft Outlook  
■ Transfer printed tables and charts directly to a spreadsheet application.  
■ Collect URLs and transfer them directly to your browser's bookmark page  
■ Capture printed data and transmit it to your mobile phone and fax it  
■ Upgradable to use over 100 different electronic dictionary databases

## Get a 3D audio experience with Monsoon speakers!

Planar Magnetic Technology yields unprecedented sound at an affordable price!

### MM-1000 Speakers

Monsoon's flat speakers with Planar Focus technology deliver surprising clarity, while the powered subwoofer gives rich bottom end to CD audio, DVDs, 3D PC games and MP3s.

This kind of "flat panel" speaker technology was once reserved for expensive home entertainment systems—now Monsoon's technology makes these systems affordable for the desktop. You hear crisp, powerful sound and accurate 3D

effects possible from today's games and multimedia applications. Now they come in 3 different packages—choose the MM-1000, MM-700 or MH-500.

### Planar Technology at a glance

Monsoon's patented Planar Technology starts with a lightweight polymer

diaphragm printed with conductive strips and suspended between strong neodymium magnet bars. These conductive strips react to the magnetic field produced by the magnet bars when voltage is applied, causing the diaphragm to move back and forth creating the incredible fidelity Monsoon is known for. A unique clamshell "stator" design encloses the diaphragm, and perforations on both sides of the "stator" allow air to pass through the front and back of the speaker as the diaphragm moves back and forth.

## The true XGA projector that's light on weight, heavy on style!

### InFocus® LP™ 335 DLP Projector The digital notebook projector

For road warriors who demand the best, unquestionable reliability in the sleekest and most-portable machine. And now, its award-winning design boasts even better brightness, connectivity and video quality.

## Print breathtaking photographs from your desktop printer!

### NEW! Canon BJC-8200 Bubble Jet® Photo Printer

#### Pure Brilliance in Photo Printing!

Imagine printing photographs right from your desktop printer—with photolab quality! The BJC-8200 Color Bubble Jet Photo Printer delivers spectacular 1200 x 1200dpi results with ease and finesse. In fact, this incredible printer is one of the most advanced in the world!

#### Designed for professional photo output!

- 1200 x 1200dpi in black and color
- Color photo print speed 1ppm at 4" x 6" print size, 0.3ppm at 8" x 10"
- 100 sheet automatic feeder
- Prints on photo paper, film, banner paper, envelopes, fabric sheets, plain paper and transparencies

The BJC-8200 uses individual ink tanks for each color, so you replace only the color that runs out.

- Handles letter and legal page sizes
- Optical ink sensor
- USB and IEEE 1284 parallel interfaces
- Optional scanner cartridge lets you transform the 8200 into a scanner
- Works with Windows and Mac systems

# RHINOTEK inkjet cartridges!

// Rhinotek is a leading manufacturer of quality brand InkJet cartridges. //  
— Business Week Magazine

New cartridges!  
Not refills!

Save money, save lives!

Did you know? Just ten years ago there were some 500,000 rhinoceros roaming the earth. Today the world population of this endangered species has decreased to less than 5700.

When you buy RHINOTEK products, you help support efforts to provide a safe haven for rhino families to live out their lives in the wild. A portion of profits from the sales of RHINOTEK are donated to the preservation of this unique species.

- Rhinotek offers quality inkjet cartridges guaranteed to meet or exceed the performance of the Original Equipment Manufacturers (OEMs)
- Genuine Rhinotek products are backed by a 100% Quality Guarantee

"Thanks for the great deal on Rhinotek inkjet cartridges... they print brilliant color and last as long as the cartridges that came with my printer. I am 100% satisfied with the quality and savings."

— Edward Vincent, Graphic Artist, Palos Verdes, CA

## Capture data from regular white boards for video conferencing!

### mimio Digital Meeting Assistant

**Enjoy a more efficient and less-bulky alternative to conventional white boards!**

Turn an inexpensive whiteboard into a data sharing device with mimio. Unlike today's electronic whiteboards which are big, bulky and expensive, mimio utilizes patent-pending "Position Sense Technology," a combination of ultra-sound and infrared sensors that capture handwritten text and sketches in color and in real-time. Weighing less than two pounds, mimio fits in a standard brief-

case or computer bag, sets up in seconds and requires no special training to operate. Simply attach the 24-inch mimio unit to the side of an existing whiteboard, plug it into a PC and slip a mimio pen sleeve over a common dry erase marker.

**New!**

- One mimio capture bar
- Four marker jackets with pens
- One mimio electronic eraser and holder
- mimio install poster
- Getting started with mimio booklet
- mimio software CD with mimioMouse

mimio DMA captures and shares notes immediately, works in real-time and in color. Playback feature recalls saved and even erased white boards.

## Innovations from Olympus!

### Olympus C-2500L 2.5 Megapixel Digital Camera

A great filmless digital camera is made up of a lot more than "just pixels." The quality of the pixels themselves counts as much as the quantity—and that's what makes the new C-2500L SLR—the ultimate in filmless digital photography. It doesn't take good-looking digital images, it takes great photos.

#### Packed with impressive features!

The C-2500L's new, 122,000 pixel TFT

LCD displays a clear, detailed image with a 2X or 4X magnification inspection mode. It gives you the choice of fully automatic & fully manual exposure, white balance and focus. And it's built for speed, so there's no waiting between shots.

- First ever 2.5 Megapixel filmless digital camera below \$1500
- Up to 1712 x 1368 resolution

## Sony's newest digital video camcorders!

**SONY**

### Ultra-small, broadcast quality recorders!

Sony's newest DV camcorders, the DCR-TRV11 and DCR-TRV20 combine ultra-small cassettes with broadcast quality digital pictures and CD quality digital sound. Everything you record is more detailed, more accurate and more alive.

Both camcorders offer Sony Memory Stick® media, which is rapidly becoming the new standard for digital data storage and transfer. Memory Stick® provides an interface between a potentially endless array of audio/video and computer products.

#### Features:

- Digital video recording with up to 500 lines of resolution
- Memory Mode Still Image Capture uses Memory Stick® Digital Storage Media. 4MB stick comes supplied
- DCR-TRV20—Megapixel CCD with 1,070,000 pixels provides stunning detail and clarity
- Carl Zeiss professional quality lens

The DCR-TRV11 features Sony Memory Stick® media at a Super Low Price!

- DCR-TRV11—680K pixel resolution with advanced HAD CCD Technology that reduces noise in the video signal to noise ratio by up to 6db. Particularly effective shooting in dark situations
- 10X Optical/120X Digital Zoom
- Analog-To-Digital Conversion with Pass-Through
- 3.5" Precision SwivelScreen® Color Display with 184,000 pixels
- Super NightShot® System to capture video even when shooting in total darkness up to 10 feet away
- Super LaserLink® Connection Wireless connection between the camcorder and television for easy playback of video

- i.LINK (IEEE-1394-FireWire) DV Interface
- Intelligent Accessory Shoe provides power, on/off and special commands to a selection of Sony Intelligent Accessories
- Infolithium Battery™ with AccuPower Metering System displays the battery time remaining in minutes in the LCD screen

## Outstanding value for home and professional applications!

### Canon GL1

Do everything the pros can do—and get incredible picture quality!

The GL1 maximizes the capability of the DV format by using 3 CCD image sensors. This process achieves outstanding picture detail, highly accurate color reproduction, wide dynamic range and virtually no color noise—making the GL1 suitable for many professional applications.

- Professional quality L-Series fluorite lens
- 20X zoom lens w/100X digital zoom
- IEEE 1394 (FireWire) DV terminal

- Programmed AE
- Optical image stabilization
- Digital effects
- 3 shooting modes
- LCD viewscreen and color viewfinder
- Analog line-in
- PCM digital stereo sound
- 16:9 widescreen TV effect

**New!**

**Canon**

The Canon GL1 provides unmatched optical technology for superior image quality and shooting versatility.

## GR-DVM90U Digital Video Camcorder

*Everything you need to get your images into cyberspace!*

The GR-DVM90U digital video camcorder comes with a DV in/out terminal (i.LINK; IEEE1394 compliant) for fast signal transfer to your computer, as well as for dubbing to or from another DV unit in native DV format. There's also a serial terminal that enables you to take advantage of computer-controlled still image capture and linear video editing without installing an additional board.

The GR-DVM90U is even more flexible thanks to its removable MultiMedia Card. Just remove the card and insert it in a PC with compatible drive to exchange data. Or you can connect the camera to your PC via a serial cable and transfer the data directly, without removing the card.

Progressive Scan and Built-in Digital Camera with 8MB MultiMedia Card

DV In/Out provides you with a high speed computer connection for advanced applications.

- 680K pixel progressive scan CCD
- Still picture quality up to 1024 x 768
- 200X Zoom
- Dual Shooting Mode lets you shoot motion video and still pictures simultaneously
- 112,000-pixel 2.5" amorphous color LCD
- Removable 8MB MMC card supplied

## Pioneer DV-434

**Just released!**

The DV-434 has the lowest price ever for a DVD player with Progressive Scan. The Progressive scan system displays a continuous succession of complete image frames, one each 1/60 second, thereby generating 60 frames per second.

This is a significant improvement from 30 frames per second, resulting in clearer, flicker-free images, and eliminating the motion artifacts, invisible scan lines, and jagged edges on moving objects of interlace scanning. Other features include:

- Digital Progressive Scan Output
- Component Video Output
- DTS and Dolby Digital Outputs
- High Speed Loading
- Twin-Wave laser pick-up for CD/Video CD/CD-R Playback

*The DV-434 progressive scan DVD player is ready now to provide the best output quality for the next generation of digital television.*

- 10-bit Video Signal DAC for high-quality DVD pictures
- 96KHz/24-bit Audio DAC for superb sound quality
- Program memory (Chapter/Title) (DVD)
- Quick Resume Function (DVD, CD Video)
- Condition Memory (DVD)
- Continue Play Memory (DVD, Video CD)
- Personal Modes (audio and video settings)

## Panasonic DVD-RV20

The new line of DVD players from Panasonic offers a unique combination of enhanced audio and video features designed to maximize the home theater experience. The DVD-RV20 features high-speed, 5-step Smooth Motion Scan. This feature provides crystal-clear forward and reverse scan, in 5 speeds. At the highest setting, the unit scans at an incredible 100 times normal speed.

**Other features include:**

- 10-bit Video D/A Converter for amazing picture quality

## JVC XV-523GD

**Dramatically improved picture quality!**

Picture quality is dramatically improved because of reduced signal loss and aliasing noise. Colors are reproduced with higher purity and finer gradation.

**Other features include:**

- Component video, S-Video and composite video outputs: thanks to component video outputs — separate outputs for Pr, Pb, and Y—the viewer enjoys pictures that are free from smear and bleed.
- Multi-brand remote control: the remote control unit comes preset with control codes for operating TVs from other manufacturers, as well as JVC. The unified cursor control/ENTER keys offer a number of convenient, interactive DVD operations.

The Digest function shows the first scene from each of nine titles or chapters on the disc in a 3 x 3 frame grid. The **Strobe function** shows a series of consecutive stills in the 3 x 3 frame grid. The **Angle List function** displays views from up to nine different camera angles. The **Zoom function** enlarges the image four times it's normal size.

## Simplifying storage solutions

### Eclipse 8x4x24 External SCSI CD-RW Drive

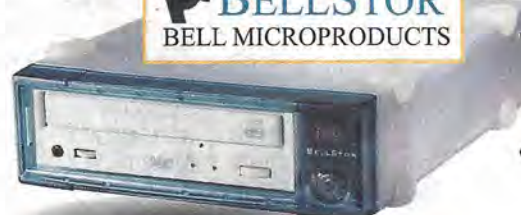

The BellStor Eclipse CD-RW drive will increase your removable storage potential dramatically. The Eclipse CD-RW utilizes recordable and re-writable CDs that are ideal for storing music and video as well as applications and critical data backups. Boasting a 24X read rate, the Eclipse CD-RW could easily be used to replace your current CD-ROM and its 2MB cache buffer virtually eliminates "buffer under run" errors and subsequent wasted media.

Manufactured to ISO9002 quality standards, all BellStor Storage Solutions provides worry free data storage. Offering an industry leading warranty of 1 year, BellStor Storage Solutions offers true data storage security. Toll-free knowledgeable technical support is yet another advantage of BellStor.

#### Features:

- 24X read rate, 8X write/4X rewrite
- 2MB buffer helps prevent "buffer under run" errors
- SCSI II Interface
- 1 year warranty

# Back-to-school Zip specials!

Save on storage for home, school and business!

**Protect your files and save your cash, with Iomega's Zip and Internet Starter Kits.**

With a Zip drive you can create and save your files, download files from the Internet and piece together a growing collection of content that's important to you.

Your Zip drive is like a safe deposit box for your PC files. Rugged, reliable Zip disks can protect your data from hard drive crashes and even physical computer theft. So give your files room to grow. And give yourself the flexibility, transportability and reliability of a Zip drive.

**Kits Include:**

- External parallel or USB 100MB drive
- One gray 100MB disk w/Zip Tools

- 4 blank colored 100MB disks
- Parallel Internet Starter Kit includes: Earthlink & Web Easy, Surfwatch, Norton Zip Rescue, and Ioware

# Microsoft® Windows® 2000— the business operating system! Windows 2000 Professional

## The reliable and robust operating system choice!

The mission of the Windows 2000 Professional development team was to create a mainstream desktop operating system that incorporates the best business features of Windows 98 and builds on the traditional strengths of Windows NT. Windows 2000 Professional is the result.

Its integrated Web capabilities and broad support for mobile computers makes Windows 2000 the easy way to connect to the Internet. And its rock-solid reliability and improved manageability simplify desktop management.

### Increased Reliability

- Robust architecture ■ Enhanced security
- Self-healing applications

### Easier to Use and Manage

- Familiar Windows interface
- Added intelligence ■ Easy setup wizards
- Network integration

### Best for Mobile Computing

- Advanced hardware support for USB, Infrared, DVD, and Plug-n-Play
- Intelligent power management

### Windows 2000 Professional

With its new file encryption system and application management tools, the new Windows 2000 Professional is more reliable, secure and manageable. It's the perfect OS for business notebook applications.

## Windows 2000 family of servers!

### Windows 2000 Server

Windows 2000 Server, the successor to Windows NT Server 4.0, is the fastest selling network operating system. It provides core file, print, Web, application, networking and communication services for business of all sizes.

- Easy to deploy, configure and use
- Provides a platform for building and running rich Web-based solutions
- Internet scalability and performance
- Securely extend to employees, partners and customers
- 4-way symmetric multiprocessing and support for systems with up to 4GB RAM
- Increased server and network availability

- Dynamic System Configuration means less down time for maintenance
- Centralized management for lower total cost of ownership
- Support for the newest peripherals

Windows 2000 Server version upgrade only

# Office 2000 for Productivity!

## The most comprehensive productivity solutions ever assembled!

Microsoft Office 2000 is your bridge to the new world of business. Office 2000 contains the tools you need to compete in a business environment that requires more speed, collaboration, targeted data analysis and reliability than ever.

Office 2000 can help your organization

succeed in this new environment because it finally makes the intranet a practical business tool.

## Enhanced communication and collaboration!

Office 2000 builds on productivity tools you already use every day. Your teams will be able to collaborate on projects more efficiently, with less time spent learning new applications.

## More targeted data access & analysis!

With Office 2000, your teams will be able to turn data into results more quickly and effectively.

## Improved ease of use & management!

Your desktop systems running Office 2000 are easier to manage and use. There's no more "one size fits all" installations of Office 2000!

## Office 2000 Version Chart *Select the one that's best for your business!*

Office 2000 is available in 5 different versions, from Standard to Premium. Each version contains a different selection of applications.

Use this chart to find the version that best meets your company's business needs.

	Premium	Professional	Small Business	Standard	Developer
	Now includes PhotoDraw 2000 v2.0	Gives you powerful tools for managing your business.	Offers the tools you need to manage your small business.	Four productivity applications that make good business sense.	Makes it easier than ever to build custom solutions with Office 2000.

# Web professionals choose Macromedia!

## Flash 5

**The professional standard for producing high-impact Web experiences!**

Design and deliver distinctive, low-bandwidth Web sites with Macromedia® Flash™ 5, the professional standard for producing high-impact Web experiences, used by over half a million web authors worldwide. Top, high-traffic sites use Flash to produce engaging experiences that attract and excite Web users.

### Easy to learn for any skill level!

A familiar, intuitive user interface makes it easy to create engaging graphics, while powerful scripting, input forms and server-side connectivity allows developers to create advanced Web applications.

**upgrade only \$139<sup>99</sup>** #950460  
Your Web part number for information or ordering is #950460  
**Flash 5**  
Your Web part number for information or ordering is #950459  
**#950459 Flash 5 Full Version \$379<sup>99</sup>**

**New!**  
**VERSION!**

Quickly create Web sites that incorporate sophisticated interactivity like animated buttons, checkboxes, rollovers and pop-up menus.

Then integrate into Flash, fusing vectors, bitmaps, motion, MP3 audio, form input and interactivity.

### Two powerful programs together!

FreeHand 9 and Flash 5 Studio save you time with streamlined content management and page layout tools. FreeHand 9 offers built-in Flash animation and integration, perspective grids, vector transparency and many time-saving features.

Flash 5 is the vector-based standard that empowers you to easily design and reliably deliver distinctive, high-impact, low-bandwidth Web sites to all browsers. Pulsing musical tracks, sound effects, gorgeous animations, and innovative interfaces all converge in Macromedia Flash.

## FreeHand 9

**The professional illustration and layout solution for print and Web!**

FreeHand 9 offers superior support for animation, hyperlinks, and tight integration with Flash 4. Built-in, Dreamweaver compliant HTML and optimized bitmap export ensure Web publishing flexibility.

- Multipage layouts
  - 3D Perspective Grids
  - Built-in Flash animation
  - Integration with QuarkXPress™ and Adobe Photoshop™
- Helps you design graphic-intensive, multipage documents!

## Adobe solutions for professional Web design

Streamline your Web production workflow with Adobe® Web Solutions, the most complete, tightly integrated suite of tools available for designing, building, and managing dynamic and interactive multimedia Web sites.

- Create stunning, Web-optimized artwork and images with Adobe Photoshop® and Adobe Illustrator®
- Develop special effects and motion graphics with Adobe After Effects®
- Edit your digital media to produce streaming Web video with Adobe Premiere®

## NEW! Adobe® GoLive® 5.0!

### Industrial-strength Web publishing!

Create compelling, fully-dynamic Web sites. Powerful design tools enable you to lay out Web pages on a grid with uncompromising pixel-level control. GoLive's source code editor lets you write, edit and check your own HTML, making you more productive.

Adobe GoLive 5.0 gives you industrial-strength design, production, and management features so you can create professional dynamic-database-driven Web sites.

### New 360Code!

Tightly integrated with other Adobe Web products, Adobe GoLive software

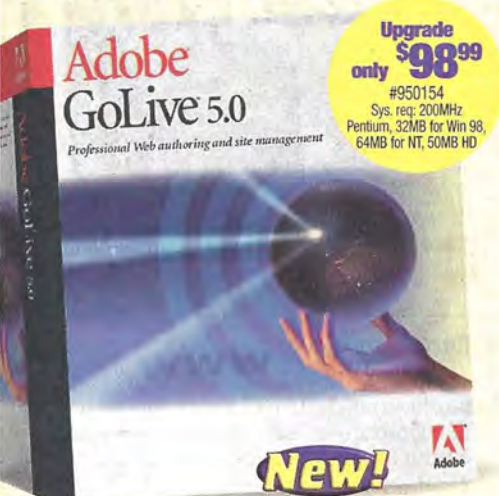

offers 360Code, which protects your code from modification and corruption, in addition to superb site layout and management functionality.

### Fully integrated design solution!

Edit Photoshop, LiveMotion, and Illustrator files within Adobe GoLive—Smart Links launch these files and update your changes in GoLive. Edit the movies you add to your site with the on-board, interactive, late-stage QuickTime editor. Manipulate, save, and view Flash (SWF) tracks with QuickTime.

### Key Features in GoLive 5.0:

- **360Code:** Now your code is protected from modification or corruption, even when you tweak your code or import foreign-source code. Designers and back-end programmers can view source code and the visual layout at the same time
- **Dynamic Link:** Link graphical elements from your page to powerful back-end ODBC-compliant databases without writing a single line of code. Supports Microsoft's Active Server Pages (ASP)
- **Extend Script:** Customize Adobe GoLive with your own palettes, floating windows, menu commands, and functions. The SDK lets third parties create and add plug-ins for expanded GoLive functionality
- **Tight integration:** The familiar Adobe user interface means you'll quickly get up to speed. Smart Links let you open Photoshop, LiveMotion, and Illustrator files within Adobe GoLive, make changes to the original source files, and watch the changes get exported to Adobe GoLive
- **QuickTime/Streaming support:** Add movies with late-stage QuickTime editor. Manipulate, save, and view Flash (SWF) tracks with QuickTime
- **Site design and reporting:** Easily create queries to generate detailed site reports—View navigational flow and file hierarchy

**Upgrade only \$98.99**

# We're Expanding!

## Build a Rewarding Future at PC Mall!

### Now Hiring Business Development Account Executives

#### **About PC Mall**

We are a leading catalog and Internet reseller of computer products located in Torrance, California. To properly serve our established client base and continue our exponential growth, we are searching for qualified candidates to expand the sales team.

#### **Rewarding positions!**

The opportunities available at PC Mall are for Account Executives in the outbound business development group. We offer a very generous commission program plus frequent cash incentives and sales contests to keep the excitement—and the incomes—at high levels.

#### **Join our professional sales team and make a difference!**

When you are selling for our company, you have our established reputation to back you up. You'll enjoy the best of both worlds—the competitive advantage

of working for a large, well known sales organization, plus the flexibility to compete effectively in a growth industry.

#### **High energy environment!**

PC Mall is a place where everyone works hard and plays hard. The company even has a new recreation room with billiards, ping pong, satellite TV and other activities for salespeople to relax between rounds of sales calls.

#### **We provide for your success!**

At PC Mall we have a strong team spirit and work together in an environment of cooperation and mutual support. As an Account Executive, you'll receive:

- Paid training
- Ongoing employee education program
- Excellent benefits
- Stock options
- Growth opportunities

#### **Qualifications:**

- Goal oriented and success driven personality
- Bachelor's Degree (preferred but not required)
- 1+ years of professional sales experience
- Computer and Internet skills a must
- Exceptional communication and organizational skills are essential

For more information on positions available at PC Mall, visit our Web site at [www.pcmall.com](http://www.pcmall.com)!
